TONOGOLD LEASERS ARE STICKING TO THEIR HOLDINGS

ALL INTENT ON MAKING DEPTH WHERE STRINGERS PROBABLY UNITE.

There is a bunch of hopeful miners still at work in Tonogold, and needless to add they are making a showing on their various leases that is bound to round some of them into producing properties before the spring of 1915 arrives. The main effort of the leasers is to get down to where the numerous stringers of good ore make into a solid ore body, and that hole fair to be accomplished inside of 100 feet in depth from present outlook on more than one lease. The fact that more quartz is in evidence and values growing stronger is very encouraging to those now operating in the district.

Good progress is being made on the Campbell & Kelly lease, now down 30 feet, the crosscut being run to the hanging contact is out nine feet, cutting a number of good stringers in the big vein without reaching the contact. Samples of the stringers will be tested to ascertain values. The crosscut from the 50 level in the Miner lease is out 17 feet west of shaft in ledge porphyry and have cut several good looking stringers of quartz in that formation and expect to encounter a good vein found at surface at about 25 feet west of shaft.

Holmquist & Almqvist, of the Daisy lease, are out 14 feet in the northeast crosscut from station at the 45-foot point. They are still cutting through the andesite, but expect to get the vein in another week or ten days. The Arizona leasers have secured the ground formerly controlled by Epstein & Regan on the Gold Star claim and started work last Tuesday. Elaine No. 1 shaft have started a west and east crosscut from the bottom of the shaft at 50 feet and expect to cut both walls in 15 to 18 feet west of the shaft and between 40 and 70 feet east of the hole. On the Elaine No. 2 vein the character of the porphyry appears to be a phonolite carrying what is believed to be signs of a telluride gold ore as tests will doubtless be made to ascertain the characteristics.

Cowden and Elliott, who own the Black Rock claim in the northeast section of camp, will start a crew to do the annual work next Monday. Kroon and Evans shaft is dropping down at a good rate, having reached the 60-foot point Wednesday. Considerable quartz in a talc casing is now showing in good sized stringers on the hanging contact, which indicate widening tendencies and look at present as though it will develop into a good sized vein of ore.

JULES SMITH CELEBRATES HIS SEMI-CENTENARY DAY

Jules Smith, of the Butler theater, forgot he had a birthday yesterday until a number of friends called at his house and insisted they had been invited to dinner at the expense of the amusement manager. Mr. Smith knew nothing of having extended any invitations, but his wife, who had been taken into the secret, was ready with the stands that kept every one in the best of spirits until a late hour. Among the guests were Charles Wittenberg, Fred Burnham, Ed. Rotholz and S. Floathe, of Millers.

TONOPAH GETS TRIMMED BY THE GOLDFIELD PLAYERS

The basketball team from Tonopah High School suffered defeat last night at the hands of the Goldfield Unity club by a score of 52 to 19. The reverse was ascribed by the Tonopah quibblers to the slippery floor, which is used for dancing and is highly polished. In proof of their statements the members of the local team show many cuts and scars received by falling.

NEED a little cash to finance that proposition? A want ad may find the fellow who has idle cash which he would be glad to invest. It's worth trying.

PINK PAJAMA KID IS GOOD BOOSTER

J. GRANT CRUMLEY TELLS WHY CAMP OF TONOPAH WILL ENDURE.

"The pink pajama kid" he is now termed and this probably will be his appellation through life. J. Grant Crumley is his exact cognomen and he is a big, chubby businessman of Tonopah, but name and fame came to him when he was conveyed from a Pullman stationer by a brass buttoned conductor and an ebony complexioned porter and steered down the aisle, in full view of the passengers who had not yet retired, and forced to occupy a plebeian lower berth.

Crumley is in Reno today to take leave with the sleeping car company on his enforced parade in pink pajamas. The Pullman company is also represented by the heads, shoulders and other members of the corporation.

But, while the hearing is awaiting: J. Grant has taken time and occasion to say a good word about his home camp. He said today: "General conditions in Tonopah are good, very good. As many men as ever are engaged in development work in Tonopah and better results than at any time heretofore are being secured. Business men are making no complaint of present conditions or expressing fear of the future. "Tonopah has a payroll of \$210,000 a month and every four weeks it produces a million worth in the neighborhood of \$1,000,000. Tens of millions of dollars have already been paid in dividends and, although mining has been conducted for 14 years, it doesn't seem as though the ground has yet been more than casually scratched. H. H. Bacon out in our town says that he will stay there until Mt. Oddie collapses because of its undermining, and becomes a lake, and he doesn't expect to live for more than another hundred years, either."

"What is most pleasing to contemplate is that the Buckeye is breaking into the Belmont formation, while the Victor had ore before the miners were driven out by water. Now they are getting their pumps in shape to handle the flow. If ore is developed in both these properties it will mean that the ore zone of Tonopah is four miles in length and nearly a mile wide, the territory thus circumscribed containing nearly all the listed properties of the district."—Reno Gazette.

OLD-TIME TEAMSTER DIES AT ELKO HOSPITAL

ELKO, Dec. 12.—Robert Crawford, old-time resident of Ely, and last of the class of early day teamsters that broke trails in Nevada, died yesterday at the county hospital here. On his advent into the silver state he drove bull teams before horses were believed to be adaptable to such work. Crawford was several times the possessor of neat fortunes, but owing to a generous and philanthropic nature died penniless.

When notified of Crawford's death and asked what disposition should be made of the remains, Crawford's brother, residing in Canton, Pa., replied: "Do what you please; body no good to me."

Christian Science Society—Services at 11 a. m. and 7:30 p. m. Subject, "God the Preserver of Man." All are invited. Sunday school at 2:45 a. m. Reading room in church parlor open every afternoon from 2 to 4 and every evening from 7 to 8:30 excepting Sunday and holidays. Church at Florence and Cross avenues.

The school trustees are considering the advisability of starting a new first grade in the latter part of January. It will depend upon how many are ready for entrance. Parents wishing to enter children at that time please communicate at once with the superintendent of schools. Children must be six or nearly six. D10-71
